

ALLEGATION BY  
MR VYSHINSKY

Mr Allen Dulles "A  
Friend of Hitler's"

UNITED NATIONS (NEW YORK),  
DECEMBER 2.

Mr Vyshinsky, the Russian delegate to the United Nations, to-day accused Mr Allen Dulles, head of the United States Central Intelligence Agency, who is the brother of the Secretary of State, of having been friends with Hitler. He made this charge while replying in the General Assembly to a speech in which Mr Lodge, the United States delegate, had ridiculed Russian assertions that "it was the United States that started Hitler." Mr Lodge had said:

"If he can persuade the people of the world that the late President Franklin D. Roosevelt collaborated with Hitler, he will be far cleverer than the man who sold refrigerators to the Eskimos."

Mr Vyshinsky said in reply:

"Mr Lodge even reproached me for having accused the late President Roosevelt of being friends with Hitler. I never would, for that would not be in line with reality and against the trend of American foreign policy at the time. But I can make such charges against other ruling circles of the United States at the time, who were closely related to various persons—such as Allen Dulles and various monopolies."

Earlier, Mr Lodge had told the Assembly that the master-mind behind the riots at United Nations prison camps in Korea, when a number of prisoners were killed, was none other than General Nam Il, the North Korean spokesman at the armistice talks. "General Nam Il was directing the killings at Koje at the same time that he was issuing loud and sanctimonious protests at Panmunjom" said Mr Lodge. He called the conduct of the general, who is now the North Korean Foreign Minister, "some kind of record for international double-talk and double-dealing."

Mr Lodge formally placed before the Assembly his proposal for an impartial commission to investigate Communist atrocities against United Nations troops and civilians in Korea. He asked for the support of Mr Vyshinsky to help secure Chinese and North Korean acceptance for his proposal. Mr Vyshinsky, however, rejected Mr Lodge's proposal. He also repudiated the charges made against General Nam Il. "To say that General Nam Il was in charge of what was happening in Korea is really absurd."

Sir Gladwyn Jebb (Britain) supported Mr Lodge's proposal and also refuted a charge made yesterday by Mr Vyshinsky that Britain had negotiated with Hitler in 1939 to "sacrifice" Poland to Germany.—Reuter.
